

Morse Table System More with less.

The Morse Table System transitions from dining table to solo work table or team work bench with ease, so that the same space can serve multiple purposes in the one day. Designed to be anything but prescriptive, this dexterous table encourages personal expression.

The Morse Table System empowers everyday change through a set of common parts that enable it to grow and adapt depending on the need at hand. Morse is grown-up enough to be right at home in premium airport lounges, as a place to touch down with a laptop between flights, and yet it's equally comfortable in design studios, as a surface for collaboration and creativity. Morse also fits right in in universities, as a table for research and learning.

This considered table transitions from dining table to solo work table or team work bench with ease, so that the same space can serve multiple purposes in the one day. Another distinguishing factor is the table's ability to change shape, thanks to clever technical features that streamline the disassembly and reassembly process. All that's required is a set of hand tools.

Morse comes with a set of accessories that resemble a series of dots and dashes, giving this versatile table its name.

Designed to be anything but prescriptive, this dexterous table encourages personal expression. Morse offers seemingly infinite possibilities when it comes to tabletop accessories and colour. Select finishes from the bottom up – legs, underframe, top which comes with a matching edge for visual consistency and then powder coated accessory colours.

Technical Specification

Servicing

If a component is damaged, we will be happy to facilitate any replacements that are required. Please email our team with an image of the damaged part and reference your order number.

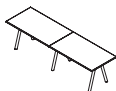

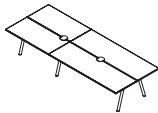

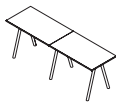

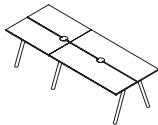

Warranty

NaughtOne offers a 10-year warranty across all products. Details on the terms and conditions of NaughtOne's warranty can be found at www.naughtone.com/warranty

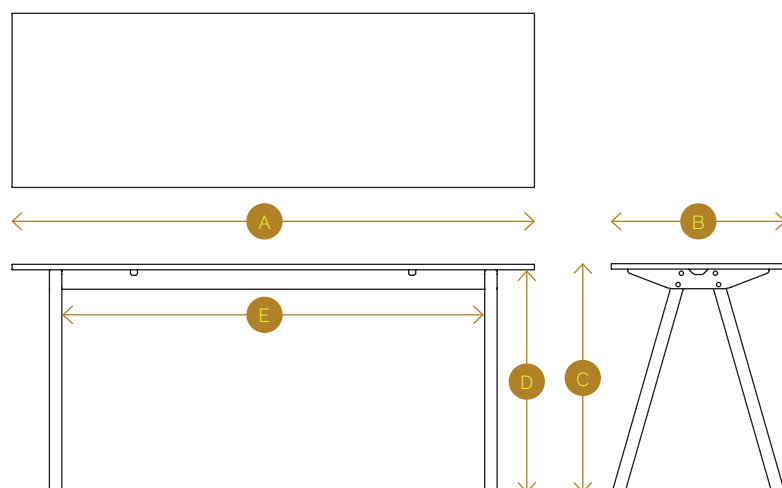

Testing

Our tables are designed to meet or exceed all EN performance requirements as per BS EN 15372:2016, which includes the following tests:

- Edges of top rounded or chamfered, no burrs or sharp edges
- Shall not be possible for load bearing parts to come loose unintentionally
- Shear and squeeze points during use
- Stability under vertical force — Main surface
- Horizontal static load — High
- Vertical static load
- Horizontal fatigue
- Vertical impact for tables without glass

with oak legs and
MFMDF top.

Environmental Attributes

- NaughtOne is FISP and ISO14001 certified
- NaughtOne is FSC® certified (FSC® C134222)
- 48 kg total weight
- 31% Recyclable (base and fixings)
- 69% Reusable (top)
- 33.09% Recycled content (base and fixings)

These attributes can help you to achieve criteria towards LEED, BREEAM, Ska and WELL building certifications.

FSC® certified products available upon request (FSC® C134222)

NaughtOne offers PEFC certified products

Where sustainable sources are quoted, and a chain of custody is required by a customer this must be indicated on the purchase order to NaughtOne. A chain of custody requested after an order has been placed or delivered may be difficult to recover.

Figures stated in this document may vary based on model and options selected. We have based this document on a specific example when produced in the United Kingdom. Recycled content calculations are taken from supplier information and industry averages. Material variables are likely to affect the figures which may result in higher or lower percentages.

This document will be reviewed and updated periodically and is subject to change without notice.

Product Sustainability Statement

The Morse table is available in a range of sizes and finishes but for the purpose of this document we have a specific example from the range: Morse 1600 x 800 with oak legs and MFMDF top.

CSR Statement

We care a great deal about the sustainability of our products. At every stage of the process – from design to manufacturing to shipping – we seek to minimise our environmental impact. Our 10-year warranty speaks of our commitment to making quality, durable furniture that does not need to be regularly replaced. We offer FSC® certified upholstered products and use recycled metals in our table ranges. We have manufacturing facilities in North America to reduce freight miles in our largest market. And we offer an innovative Take-Back Programme that enables clients to return products to us at their end of life so we can recycle the parts. We are proud of what we have done, but we are ready to go further.
