

Fin Lounge Chair

Simply charming,
however you look at it.

Fin feels like déjà vu – you think you’ve seen it before, but you haven’t. A contemporary take on 1960s space age design, the fully upholstered form is striking and brave – and a blank canvas for designer expression. Its dialled in proportions charm and invite from all angles; it is effortless yet painstakingly intentional. Say hello to the pleasingly familiar yet refreshingly new.

With Fin, British designer Daniel Schofield set out to make a chair that looks soft and inviting but doesn't take up too much visual space. He also wanted to use formed plywood, a highly malleable material yet incredibly strong. Ideal for contract seating where performance is key.

The wooden frame is fully wrapped by the upholstery, making a seamless, sculptural form with no visual breaks. Pinch seams taper the edges to a point, creating a sense of lightness. The fit is precise, ensuring tightness across the arched surfaces. It's a masterclass in upholstery.

Yet despite the careful consideration, attention to detail and skillful craft, Fin is above all a delightfully simple chair. It's made of just two interlocking shapes. It drinks up colour, so specifiers will love expressing their creativity through fabric and tone. And it adds character to offices, campuses, receptions, hotels and other commercial settings.

It's a charming conclusion to something that began as a playful experiment. While folding two pieces of paper together, Daniel happened on a form he liked. A reminder that great ideas often start at playtime.

Product Specification

Compliance

- FSC® certified products available upon request (FSC® C134222)
- NaughtOne is FISP and ISO14001 certified
- Our seating is designed to meet or exceed all EN performance requirements per BS EN 16139:2013

Resources

3D visualisation models, 2D DWG and Revit files are available for all NaughtOne products. Download the files from our website www.naughtone.com

All images shown here and many others can be downloaded from www.naughtone.com or please request a link to our Dropbox account.

Fin offers laid-back comfort and a wide, supportive sit.

Sizes

All dimensions quoted are rounded to the nearest 5 mm or nearest 1/2 inch

Technical Specification

Servicing

If a component is damaged, we will be happy to facilitate any replacements that are required. Please email our team with an image of the damaged part and reference your order number.

Warranty

NaughtOne offers a 10-year warranty across all products. Details on the terms and conditions of NaughtOne's warranty can be found at www.naughtone.com/warranty

Flammability

The cold cure foam material has been tested to meet the following standards:
British standard: 5852:2006 Part 2
California Technical Bulletin: 117-2013

The flammability standard of the covering fabric is dependent on the choice made by the customer. Details of the flammability rating of specific fabrics can be found on supplier websites.

Testing

Our chairs are designed to meet or exceed all EN performance requirements as per BS EN 16139:2013, which includes the following tests:

- Seat and back static load test
- Seat front edge static load test
- Vertical static load on back
- Foot rest and leg rest static load test
- Arm sideways static load test
- Arm downwards static load test
- Vertical upwards static load on arm rests
- Seat and back durability test
- Seat front edge durability test
- Leg forward static load test
- Leg sideways static load test
- Seat impact test
- Back impact test
- Arm impact test

Measuring Guide

CSR Statement

We care a great deal about the sustainability of our products. At every stage of the process – from design to manufacturing to shipping – we seek to minimise our environmental impact. Our 10-year warranty speaks of our commitment to making quality, durable furniture that does not need to be regularly replaced. We offer FSC® certified upholstered products and use recycled metals in our table ranges. We have manufacturing facilities in North America to reduce freight miles in our largest market and we offer an innovative Take-Back Programme that enables clients to return products to us at their end of life so we can recycle the parts. We are proud of what we have done, but we are ready to go further.

Where sustainable sources are quoted and a chain of custody is required by a customer, this must be indicated on the purchase order to NaughtOne. A chain of custody requested after an order has been placed or delivered may be difficult to recover.

Figures stated in this document may vary based on model and options selected. We have based this document on a specific example when produced in the United Kingdom. Recycled content calculations are taken from supplier information and industry averages. Material variables are likely to affect the figures which may result in higher or lower percentages.

This document will be reviewed and updated periodically and is subject to change without notice.

Product Sustainability Statement

All figures use UK-based industrial manufacturing data. The kg CO₂e calculations are based on the cradle-to-gate phases of a Life Cycle Assessment at NaughtOne's factory in Elland, UK.
