

Mimo Modular Seating

Quiet design that you can't help noticing.

Designed by Keiji Takeuchi, the low and loungey Mimo blends residential style and upscale looks with contract-grade performance and specifier flexibility. As impressive as a simple two- or three-seat sofa, modular layout, or stately club chair, it's confident without being showy. Proof that you can make a powerful impression even when speaking quietly.

Mimo's design is built on contrasts: supportive yet soft, compact yet commanding, simple in appearance but technically sophisticated. The sculpted cushions – nicknamed “bellies” by designer Keiji Takeuchi – create inviting comfort. Underneath the surface, precise tailoring and refined engineering do the hard work, allowing Mimo to feel effortless.

Keiji's approach to form is intuitive and iterative. The design began not on paper, but in full-scale models made in his studio — a space divided between quiet reflection upstairs and

hands-on model-making downstairs. With Mimo, this symmetry matters. The outer shell gives structure; the interior cushions add comfort. “Like snow settling on a park bench”, as Keiji puts it.

Mimo is designed with modern commercial spaces in mind. Specify it in soft fabrics and its residential character comes to the fore. Choose leather and it conveys prestige. Once in place, it holds a room with ease — quiet but loud. It doesn't shout, but it always gets noticed.

Technical Specification

Servicing

If a component is damaged, we will be happy to facilitate any replacements that are required. Please email our team with an image of the damaged part and reference your order number.

Warranty

NaughtOne offers a 10-year warranty across all products. Details on the terms and conditions of NaughtOne's warranty can be found at www.naughtone.com/warranty

Flammability

The cold cure foam material has been tested to meet the following standards:
British standard: 5852:2006 Part 2
California Technical Bulletin: 117-2013

The flammability standard of the covering fabric is dependent on the choice made by the customer. Details of the flammability rating of specific fabrics can be found on supplier websites.

Testing

Our chairs are designed to meet or exceed all EN performance requirements as per BS EN 16139:2013, which includes the following tests:

- Seat and back static load test
- Seat front edge static load test
- Vertical static load on back
- Foot rest and leg rest static load test
- Arm sideways static load test
- Arm downwards static load test
- Vertical upwards static load on arm rests
- Seat and back durability test
- Seat front edge durability test
- Leg forward static load test
- Leg sideways static load test
- Seat impact test
- Back impact test
- Arm impact test

Measuring Guide

CSR Statement

We care a great deal about the sustainability of our products. At every stage of the process – from design to manufacturing to shipping – we seek to minimise our environmental impact. Our 10-year warranty speaks of our commitment to making quality, durable furniture that does not need to be regularly replaced. We offer FSC® certified upholstered products and use recycled metals in our table ranges. We have manufacturing facilities in North America to reduce freight miles in our largest market and we offer an innovative Take-Back Programme that enables clients to return products to us at their end of life so we can recycle the parts. We are proud of what we have done, but we are ready to go further.

Where sustainable sources are quoted and a chain of custody is required by a customer, this must be indicated on the purchase order to NaughtOne. A chain of custody requested after an order has been placed or delivered may be difficult to recover.

Figures stated in this document may vary based on model and options selected. We have based this document on a specific example when produced in the United Kingdom. Recycled content calculations are taken from supplier information and industry averages. Material variables are likely to affect the figures which may result in higher or lower percentages.

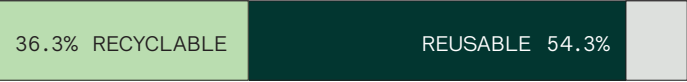

This document will be reviewed and updated periodically and is subject to change without notice.

Product Sustainability Statement

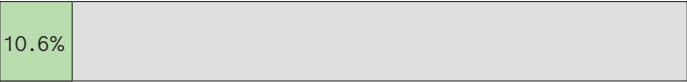

Mimo Modular Seating is available in a range of sizes, configurations and finishes, but for the purpose of this document we have a specific example from the range: Mimo Club Chair.

All figures use UK-based industrial manufacturing data. The kg CO₂e calculations are based on the cradle-to-gate phases of a Life Cycle Assessment at NaughtOne's factory in Elland, UK.

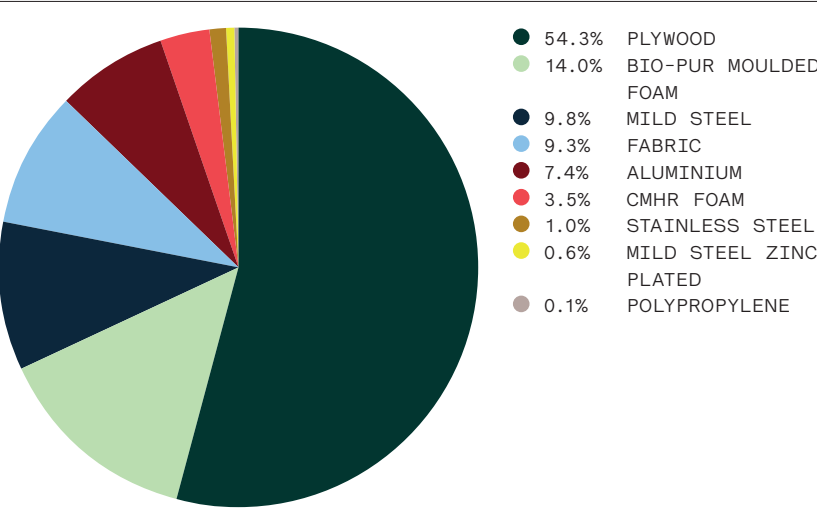

Recyclable Content

Recycled Content

Material Percentage Split

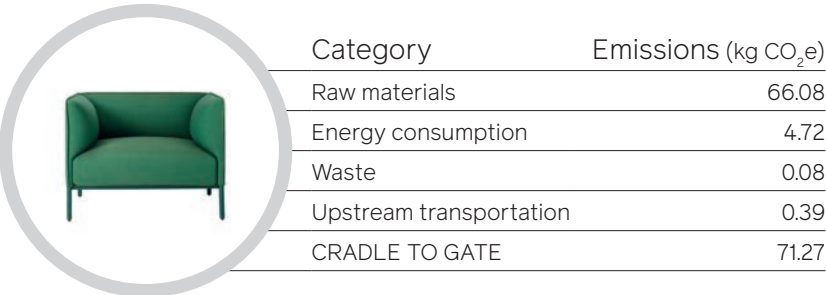

Environmental Attributes

- NaughtOne is FISP and ISO14001 certified
- FSC® certified products available upon request (FSC® C134222)
- 41.4 kg total weight
- 36.3% Recyclable
- 54.3% Reusable
- 10.6% Recycled Content

These attributes can help you to achieve criteria towards LEED, BREEAM, Ska and WELL building certifications.
